EDUCATION

B.S. COMPUTER SCIENCE, OHIO NORTHERN UNIVERSITY (ONU) | Ada, OH (ABET Accredited)

GRADUATION: MAY 2025

Cybersecurity Concentration | 3.9 GPA

Leadership: President of the Association for Computing Machinery (ACM)

Related Courses: Networks/Data Communication, Computer Architecture, Computer Security, Security/Vulnerability Testing, Hardware Security, Web Development, Machine Learning, Mobile App Development, Operating Systems, and Software Engineering.

Honors: Mortar Board Honor Society

SOFTWARE DEVELOPMENT PROJECTS AND RELATED RESEARCH

SPARK OF IMAGINATION- CAPSTONE, ONU

FALL 2024-SPRING 2025

- Collaborated with a team of 6 people from various engineering disciplines to create a themed entertainment experience
- Increased the interest in prospective engineering students by creating several lighting effects around the Ohio Northern University engineering building
- Utilized ESP-32 Microcontrollers communicating using the ESP-NOW protocol to control LED lights, and a Flask server for communication with a Raspberry Pi to display a .GIF projection. Coded utilizing Agile.

TEXT TO BRAILLE – INSTITUTIONAL RESEARCH, ONU

SPRING 2024

- Created a Python Script that takes user input and converts it into a 3D printable braille plaque.
- Used to design temporary signage for a variety of settings and events (e.g. rotating dishes at buffets, shared meeting room labels, event seating tags)

KOTLIN MP3 PLAYER – MOBILE APPLICATION DEVELOPMENT, ONU

SPRING 2023

- Developed an MP3 Music player in Kotlin to seamlessly flow tracks together providing an experience similar to a vinyl record

OREGON TRAIL – OBJECT ORIENTED PROGRAMMING, ONU

SPRING 2022

- Demonstrated strong verbal, written and interpersonal skills while communicating and collaborating with a team of 4 to build a new version of the 1995 game, Oregon Trail
- Coded in Java while including randomized events, weather system based off the calendar, cooking minigame, and a store

RELATED CAREER EXPERIENCE

KALMBACH FEEDS, Upper Sandusky, OH

DATA ENGINEERING INTERN

JANUARY 2025 – MAY 2025

- Communicated with the internal human resources (HR) department to develop and automate an API certificate for ADP script
- Used python and Microsoft Graph API to update API certificate inside of Azure Key Vault
- Extracted and analyzed data using the ADP API and prepared it for reporting to increase efficiency within the HR department
- Stored the data collected through the ADP API in a Databricks Lakehouse using Pyspark to ensure archival records of data

CLOUD ENGINEERING INTERN

JUNE 2024 – AUGUST 2024

- Implemented an observability platform called Grafana to provide visibility and set up alerts within the Microsoft Azure Cloud environment

WESTFIELD GROUP, Westfield Center, OH

THREAT AND VULNERABILITY MANAGEMENT INTERN

SUMMER 2023

- Verified IP address owners for vulnerability scan reporting
- Created python scripts for vulnerability reporting automation and validated/tagged asset owners of hosts in the network
- Studied red team penetration testing for business applications

TECHNICAL SKILLS

- HTML/CSS, C++, Java, Kotlin, RISC-V, PowerShell, C#/.NET and Python programming languages
- Red Team Security experience using Kali Linux, TryHackMe, and CrowdStrike Falcon for penetration testing and vulnerability reporting
- Building networks, setting up routers, and calculating IP Addresses/Subnet Masks
- Knowledge working inside of Microsoft Azure DevOps, Graph, and Entra ID for active directory and access control
- SQLite/MongoDB Database experience, Docker Containerization experience, web development experience using Node.JS
- Experience building databases through Databricks and Pyspark

PROFESSIONAL DEVELOPMENT

Presenter, *Spark of Imagination*, ASEE North Central Conference, Marshall University, Huntington, WV

MARCH 2025

Presenter & Publication, *Text to Braille*, ASEE North Central Conference, Western Michigan University, Kalamazoo, MI

MARCH 2024

- Nominated for Best Student Paper, 2024
